WABCO Locomotive Products Achieves ISO 9001:2000 Registration

WILMERDING, Pa., Feb. 2, 2004 – WABCO Locomotive Products, a division of Wabtec Corporation (NYSE: WAB), recently achieved ISO 9001:2000 registration from National Quality Assurance, USA in Acton, Mass. The 2000 version of the ISO 9001 applies to entities that design, develop, manufacture and service products with an aim toward enhancing customer satisfaction.

“A team effort, involving all areas of the company, fueled this achievement,” said Robert C. Bourg, vice president and general manager, WABCO Locomotive Products. “Through this endeavor, we have significantly improved our existing procedures, especially our audit process, and how we measure customer satisfaction.”

Based in Wilmerding, Pa., WABCO Locomotive Products manufactures pneumatic brake components and related devices, such as air compressors, air dryers and aftercoolers.

Wabtec Corporation (www.wabtec.com) is one of North America’s largest providers of value-added, technology-based products and services for the rail industry. Through its subsidiaries, the company manufactures a range of products for its locomotives, freight cars and passenger transit vehicles. The company also builds new switcher and commuter locomotives, and provides aftermarket services, including locomotive and freight car fleet maintenance. The company has facilities located throughout the world. Wabtec’s mission is to be judged by its stakeholders as the world-class corporation focused on helping its global customers compete more effectively through higher levels of safety, quality and productivity.
