Wabtec Rubber Products Receives ISO 9001:2000 Registration

WILMERDING, Pa., Feb. 2, 2004 – Wabtec Rubber Products, a division of Wabtec Corporation (NYSE: WAB), recently achieved ISO 9001:2000 registration from National Quality Assurance, USA in Acton, Mass. The 2000 version of the ISO 9001 applies to entities that design, develop, manufacture and service products with an aim toward enhancing customer satisfaction.

“Wabtec Rubber Products’ entire management team worked together to earn this ISO registration, and our joint effort remains in place as we stay committed to further improving customer satisfaction through the delivery of exceptional products, services and technical support,” said Darren J. Beatty, vice president and general manager, Wabtec Rubber Products. “The company’s recent implementation of the new ISO standard complements the lean principles of Wabtec’s corporate-wide Quality & Performance System and fosters continuous improvement.”

Wabtec Rubber Products specializes in producing custom-molded rubber products for rail and industrial markets. The company uses compression, injection and transfer molding, and it has nearly a century of experience supplying components for quality- and value-sensitive industrial/original equipment applications, as well as for railway braking and related equipment. The company’s highly engineered rubber products are composed of fabric-reinforced rubber, rubber bonded to metal, composite coated rubber and pure rubber. Wabtec Rubber Products has its headquarters and manufacturing facility in Greensburg, Pa.

Wabtec Corporation (www.wabtec.com) is one of North America’s largest providers of value-added, technology-based products and services for the rail industry through its subsidiaries; the company manufactures a range of products for its locomotives, freight cars and passenger transit vehicles. The company also builds new switcher and commuter locomotives, and provides aftermarket services, including locomotive and freight car fleet maintenance. The company has facilities located throughout the world. Wabtec’s mission is to be judged by its stakeholders as the world-class corporation focused on helping its global customers compete more effectively through higher levels of safety, quality and productivity.
