**Wabtec Rubber Products Signs Five-Year Supply Contract With Wilden Pump**

WILMERDING, Pa., Feb. 24, 2004 – Wabtec Rubber Products, a division of Wabtec Corporation (NYSE: WAB), has signed a five-year contract to supply diaphragms, worth about \$10 million, to Wilden Pump & Engineering Co., a division of Dover Corporation. Deliveries under the contract has begun and will continue through 2008. The diaphragms will be used by Wilden in both original equipment and replacement pumps.

“This agreement represents a significant expansion of Wabtec’s existing supply relationship with Wilden, which has been a customer of ours since 1990,” said Darren J. Beatty, vice president and general manager of Wabtec Rubber Products. “We are pleased that Wilden has demonstrated its continuing trust in our high-performance elastomers, and we look forward to expanding our relationship further in the years ahead. In addition, this contract illustrates our growing ability to serve industrial as well as rail market customers.”

Wabtec Rubber Products, an ISO 9001:2000-certified company, specializes in producing custom-molded rubber products for rail and industrial markets. The company uses compression, injection and transfer molding, and it has nearly a century of experience supplying components for quality- and value-sensitive industrial/original equipment applications, as well as for railway braking and related equipment. The company’s highly engineered rubber products are composed of fabric-reinforced rubber, rubber bonded to metal, composite coated rubber and pure rubber. Wabtec Rubber Products has its headquarters and manufacturing facility in Greensburg, Pa.

Wabtec Corporation ([www.wabtec.com](http://www.wabtec.com)) is one of North America’s largest providers of value-added, technology-based products and services for the rail industry.
